Service Report

Date: May 6, 2024

Biologist: Doug Charles

Client: Palencia, Marsh Creek CDD

Ratings: 1 – 10 (Best is 10)

Waterways: 32 ponds

Herbicides used: Copper sulfate

Weather Conditions: Mostly sunny, hot.

Special Notes: Larvicide application for Midge Flies has knocked back the infestation. Monthly applications are typically recommended. Let us know how you would like to proceed.

Lake Y-2: Rated: 8

- Moderate floating debris in the NE cove, this area gets accumulation of debris from the prevailing southern wind.

Treatment: I hand raked the floating debris and then treated it with copper sulfate.

Recommendations: I plan to rake this area weekly.

Lake 9: **Rated: 7**

- Heavy salvinia infestation has died back.
- Good kill on shoreline grasses on developed side.
- Access is still very soft.

Treatment: Inspection only.

Recommendations: I will continue to closely monitor this infestation.
