LAPR Office: 352-595-8863

Fish farm Office: 352-595-1700

Service Report

Date: March 20, 2023

Biologist: Doug Charles

Client: Palencia, Marsh Creek CDD

Ratings: 1 – 10 (Best is 10)

Waterways: 32 ponds

Herbicides used: Polaris, Glyphosate

Comments: The weather conditions today were cool (40s) and windy. The pond levels are high from recent rains.

Lake Y-2: **Rated: 9**

- There is minor floating spikerush in the northwest side.
- I had good results from the last treatment.
- No alligators observed.

Treatment: I hand raked the floating spikerush.

Recommendations: Keep an eye out for gators. Gators must be controlled for my biological program to work.

Lake V-2: **Rated: 8**

- Moderate spikerush around perimeter.
- Water level is normal.
- No gators observed.

Treatment: None needed.

Recommendations: Keep a lookout for gators.

Lake 8: **Rated: 9**

- There is spotty pennywort and torpedo grass along the shoreline.
- There is no algae or submersed vegetation.
- No alligators observed.

Treatment: I treated the pennywort and shoreline grasses by backpack.

Recommendations: Keep an eye out for gators. Gators must be controlled for my biological program to work.
