CHARLES AQUACULTURE, LLC

15350 N US Highway 301 Citra, FL 32113

LAPR Office: 352-595-8863

Fish farm Office: 352-595-1700

## Service Report

Date: September 1, 2023

Biologist: Doug Charles

Client: Palencia, Marsh Creek CDD

Ratings: 1 – 10 (Best is 10)

Waterways: 32 ponds

Herbicides used: None

Lake V-2: Rated: 6

- Heavy fish kill at south end only. Large bass, bluegill, and one huge grass carp were dead, no small fish.
- Heavy dying spikerush and chara, some coming back.
- Water level is low.

**Treatment:** I picked up approximately **200 dead fish** using the airboat. Cause for this fish kill is unknown, however, **there is water being pumped in from a lift station that may be contributing to this issue. This is the second fish kill where the cause was unknown.**

**Recommendations:** **Find out where the water is coming from that is being pumped into this lake.**
